MUSIC EXPERIENCE
made simple

VOCO V-ZONE BENEFITS

EASY WIRELESS SET UP

Set-up using your home Wi-Fi or simply plug the V-Spot into ethernet for simple configuration.

WHY STOP AT ONE

Add VOCO devices to create a multi-zone media system to enjoy music and video throughout your home.

BUILT IN MUSIC SERVER

The VOCO V-Zone comes with a built in music server that automatically finds music when an iPod, mp3 or USB hard drive is plugged in.

FASTER VOICE SEARCHING

Download the VOCO Controller app from The Apple App Store® or Google Play® and use your voice to search and manage music, internet radio and online music services.

STREAM UNLIMITED MUSIC

Experience the ultimate music experience by streaming unlimited music.

The First of Its Kind.

Only VOCO delivers the ultimate music experience by combining HiFi sound, HD video and voice search so you can listen and watch your favorite performers. Don't settle for half the experience when you can stream music and video in any room wirelessly. VOCO gets it™. VOCO created easier and more efficient ways to search, manage, and play music and video in any room; along with the freedom to access and control it using mobile devices. VOCO offers multi-room streaming, voice search, Wi-Fi hotspot, streaming from computers, iTunes®, YouTube®, phones, tablets, USB drives, and free online services like Pandora®, Spotify®, Tunein® and many others.
